A2 The application deadline is 15 January for the August intake. There is one intake per year for all programmes, except the MSc(Integrated Sustainable Design), MSc(Project Management) and MSc(Environmental Mgt) programmes which have 2 intakes per year. The application deadline is 15 August for the January intake.

Q3 When can I know the outcome of my application?

A3 Applicants for the August intake will be notified via email sometime in end March/early April. Applicants for the January intake will be notified sometime in October.

Q4 What is the application process like?

A4 After the closing date, all applications will be passed to the respective Admission Panels for consideration. Some applicants may be required to attend an interview. Upon the Admission Panels' recommendations, DRGS office will put up the recommendations for approval before informing applicants of the outcome via email.

Q5 What is the main difference between coursework and research programmes?

A5 Coursework programmes require students to follow a prescribed course of study and to sit for examinations. Research degrees are awarded on the basis of supervised research, some modules taken and the submission of a thesis for examination. For further details on research programmes, please email Ms Nor'Aini Binte Ali at sdna@nus.edu.sg.

Q6 Can I apply for both research and coursework postgraduate programmes at the same time?

A6 The application processing is done separately for coursework and research programmes. Candidates should make a decision to apply for only one coursework / research programme. This is to prevent situations when the candidate is offered admission while other application outcome is still pending. The applicant will have to make a difficult decision whether to accept or reject the first offer before the acceptance deadline.
